SCHOOL OF MUSIC MINORS

The Music Minor requires only 15 credit hours and is an excellent opportunity for students in other majors to pursue their passion for music. Students will take music history and theory classes, and may choose to take private lessons, participate in ensembles, study music technology or take elective music courses in other areas.

The Music, Media, and Enterprise Minor is designed for students who wish to pursue careers in the recording industry, music business or other related fields. The minor consists of 15 credit hours, most of which are required music and business classes. The remaining credit hours are electives, allowing students to explore music, business, audio engineering or communication classes.
